EDUCATION

The University of Alabama, Tuscaloosa, AL, May 2027

Master of Science in Management Information Systems, Manderson Graduate School of Business, GPA: 4.0/4.0

Bachelor of Science, Culverhouse College of Business, GPA 3.7/4.0

Majors: Management Information Systems, Management

WORK EXPERIENCE

Graduate Teaching Assistant: System Design & Analysis, August 2026 – Present

The University of Alabama, Tuscaloosa, AL

- Attend all lecture sections to provide in-class instructional support and assist 72 students with course material
- Evaluate and grade weekly assignments, project deliverables, and technical exams using faculty-established rubrics
- Collaborate with the primary instructor to track student performance and ensure consistent, timely grading administration students in problem solving, project management and technical application through personal instruction

Automation Center of Excellence (CoE) Intern, May 2026 – August 2026

Smurfit Westrock, Remote

- Architected a serverless multi-agent diagnostic workflow leveraging AWS Lambdas, Step Functions, and Secrets Manager to automate log retrieval, error triaging, and root-cause incident reporting
- Engineered and executed a SQL Server database archival strategy, successfully migrating and validating over 15.6 million historical records to maintain 100% data integrity and optimize production system performance
- Collaborated with enterprise database administrators to execute a Power BI migration, re-mapping relational data schemas, resolving connectivity bottlenecks, and validating end-user reporting continuity

Human Resources Information Systems Intern, May 2025 – August 2025

Smurfit Westrock, Sandy Springs, GA

- Served as a core technical analyst during a global Human Capital Management system migration across 30 countries, validating and mapping complex employee transaction workflows
- Audited 35 Oracle PeopleSoft security roles and permission lists to close compliance gaps, enforce role-based access control (RBAC), and enhance enterprise data governance
- Partnered with cross-functional project management and IT teams to translate non-technical business requirements into structured functional specifications

PROJECT EXPERIENCE

Project Manager & Developer – BioISAC Threat Intelligence Platform, Fall 2025

MIS 321 Group Project, The University of Alabama, Tuscaloosa, AL

- Partnered with industry stakeholders to capture software requirements and build an automated Tier-1 threat ingestion pipeline, reducing analyst triage time using Google Gemini API integrations
- Designed and deployed a secure web architecture incorporating Role-Based Access Control (RBAC) to ensure strict adherence to cybersecurity compliance standards

Project Manager, Fall 2025

MIS 321 Group Project, The University of Alabama, Tuscaloosa, AL

- Won 1st Place and Student Choice Award at the AIS National Software Innovation Competition for architecting an AI-enabled educational resource platform
- Built full-stack system architecture using C#, ASP.NET Core, and SQLite, managing SDLC progression from initial wireframing to Git-managed production deployment

LEADERSHIP EXPERIENCE

Vice President, August 2026 – Present

AIS, The University of Alabama, Tuscaloosa, AL

- Co-lead chapter operations alongside the President, managing strategic planning, corporate networking schedules, and professional development portfolios for student members

TECHNICAL LANGUAGES, FRAMEWORKS, AND TOOLS

Languages & Databases: C#, JavaScript, SQL (MySQL, SQL Server, SQLite, PostgreSQL), HTML, CSS, Node.js
